

To Whom It May Concern at the FCC,
In response to the NAB's petition 04-160 I want you to know that as a truck driver XM radio is a fantastic addition to my listening options. I really enjoy being able to get CD quality from my radio in my big truck and the many valuable benefits that are available to me such as traffic and weather, news and talk programs as well as any kind of music you desire helps me immensely to stay aware and alert to conditions that I need to know about in order to do my job more efficiently and safely.

Please do not let anything happen to any of the services that XM provides. They have a right to provide their listeners with whatever the market wants. Make no ruling against them.
